Council meeting

1. Apologies

No apologies

2. Declarations

No declarations

3. Planning

The following observations were made

- Improvement on existing bungalow
- Glass on front is imposing and not in keeping with traditional style of blue lias, and the quarrying character of village.
- Suggested on the other hand that Barton Road does not have individual character and there are a mixture of properties in style, and age.

It was proposed that the application is recommended for **approval** with the comment that the glass on the front is too imposing / dominant a feature and not in keeping with rest of the village. 1st MR, 2nd BG Unanimous vote
