

financial services

When it comes to Financial Services, you need to take advice from someone who is not only appropriately qualified but equally importantly, someone you can trust. Far too many Financial Advisers have been disqualified for giving inappropriate advice just to make a sale. Derek Young Financial Management Limited (DYFM) offer truly impartial and independent advice which is based on our extensive knowledge of our clients' financial affairs.

The provision of Financial Services by DYFM has the following benefits:

-  Our team leader has been an Independent Financial Adviser (IFA) for almost 2 decades
-  Our existing knowledge of your financial affairs puts us in the best possible position to offer advice on the pensions, investments and mortgages that best suit your requirements
-  Unlike most IFAs we have a close ongoing relationship with our clients and can therefore ensure that the advice given, continues to be appropriate in light of any changes in their financial circumstances
-  This puts us in a better position to provide this service than, say, Virgin or Marks & Spencers, both of which are now offering Financial Services (but without independent advice).
-  A valuable service that many practices are unable to provide.
-  Truly independent expert advice that is given with our clients' best interests in mind.
-  A member of Countrywide Independent Advisers which is Regulated by the Financial Services Authority ensuring even greater peace of mind for our clients.

“Derek Young Financial Management Ltd are in the best possible position to provide expert independent advice.”
