

BIG BROTHER IS WATCHING

This Summer has sadly seen several well publicised thefts of dogs from Local Boarding Kennels.

We have had CCTV Cameras & monitoring equipment since 1999 and are pleased to report no such breaches of security. In addition we have Security Lighting & Nightly Patrols.

Visit us Without Notice

When choosing a Boarding Kennels it is essential to visit several local Kennels and then decide. The best advice we can give is to seek advice from a friend or Veterinary Surgeon who will have had past experience. If Kennels ask you to make an appointment to view—be wary! What have they got to hide? You can visit us when ever you like as long as we're open! Just turn up—You can see what ever you like!
