Swimming is not a cheap sport which is why sponsorship is important. The cost of our Dunkirk camp would have been £165 approximately but with the support of many local companies this was reduced by more than 50%. These companies included the Dover Harbour Board, Pfizer, X Drive Computer software, British Telecom, John Mitchell Transport, Gray Rental Services and main sponsor P&O Ferries. In addition to financial support P&O also arranged for the channel crossing. Nestle Waters provided a "pallet" of their new Vittel Energy Plus sports drink, Coca Cola also provided a similar quantity of Powerade.

Sponsorship comes in various forms - in addition to the companies mentioned above our activities at Dover Regatta were supported by Rooks Butchers, who provided the raw materials for the barbecue. Hoverspeed and De Bradlei Wharf generously donated raffle prizes. Most of these sponsors come as a result of personal contacts please do not be shy about making the approach and using whatever information you require about the club. Please see me if you need anything more specific.

Jade Henson - "I'm not eating that"
