If the estimated service availability date on the exchange you are looking at has changed then please note that as previously indicated our rollout plans are indicative and include a degree of contingency. This has allowed us to continue to deliver our deployment to plan in terms of the number of homes able to access Super-fast Broadband services. We would like to confirm that no exchanges have been removed from the list and we are still planning to deliver fibre to these areas by the revised date shown in the table above.
