

## Super Fast Fibre Access Exchange Area Roll-out

The indicative dates are estimates only and may change. Please contact your Communications Provider for information on when they expect to provide services in your area.

Under the DETI Next Generation Broadband project defined cabinets within certain exchange areas continue to be enabled across Northern Ireland, please visit [www.fasterbroadbandni.com](http://www.fasterbroadbandni.com) for further updates. This project is also supported by BT, ERDF, DARD and EAFRD.

Exchange Name	Exchange ID Code (SAUID)	FTTP or FFFC	County	Estimated Service Delivery Date (C-RFS)
ACCRINGTON	LCACC	FTTC	Lancashire	2012

BITTON	SSBIT	FTTC	Avon	2011

If the estimated service availability date on the exchange you are looking at has changed then please note that as previously indicated our rollout plans are indicative and include a degree of contingency. This has allowed us to continue to deliver our deployment to plan in terms of the number of homes able to access Super-fast Broadband services. We would like to confirm that no exchanges have been removed from the list and we are still planning to deliver fibre to these areas by the revised date shown in the table above.

UPHOLLAND	LVUPH	FTTC	Lancashire	2011
UPMINSTER	LNUPM	FTTC	Greater London	2011
UPTON PARK	LNUPK	FTTC	Greater London	2011

If the estimated service availability date on the exchange you are looking at has changed then please note that as previously indicated our rollout plans are indicative and include a degree of contingency. This has allowed us to continue to deliver our deployment to plan in terms of the number of homes able to access Super-fast Broadband services. We would like to confirm that no exchanges have been removed from the list and we are still planning to deliver fibre to these areas by the revised date shown in the table above.

## Super Fast Fibre Access Exchange Area Roll-out

The indicative dates are estimates only and may change. Please contact your Communications Provider for information on when they expect to provide services in your area.

Under the DETI Next Generation Broadband project defined cabinets within certain exchange areas continue to be enabled across Northern Ireland, please visit [www.fasterbroadbandni.com](http://www.fasterbroadbandni.com) for further updates. This project is also supported by BT, ERDF, DARD and EAFRD.
