DESCRIPTION

Vervoids are a manufactured alien race, the result of experiments by 'mad' Professor Lasky. The Vervoids are an organic plant based life form covered in leaves and vines, with a head like the bud of a flower. They do however walk on two legs, and have two arms with which they are as dextrous as humans.

SPECIAL RULES

FIRE – WEAPON – Poison Gas

- Area Effect: Giant Blast Template.
- LOS (Line of Sight) required.

FIRE – WEAPON – Poison Thorn

Poison thorns are deadly to humans and other races or beings who's bodies contain a blood stream.

- If a target model has no blood stream then the poison thorn will cause no effect.
- If the target does have a blood stream the poison thorn will cause 3 points of damage.
