091	Working towards sports related degree or other national award	-	-	25

Note 1 Where reference is made to 'per year' this should be taken as each year starting on the anniversary of your renewal

Note 2 Informal Mentoring by its nature is not part of a formal training programme but is correctly used where a coach is learning by receiving advice or help from a more senior, or post-experienced coach. To qualify as CPD informal mentoring must:-

- Be a relationship where there is real professional development taking place
- Where the mentor is a coach of a more Senior Grade or of the same grade but with much more experience
- Involve a commitment by both parties to work together over a period of time. To qualify in each year there shall be evidence of a relationship extending over at least 4 months
- Significant communication between the parties in person, by phone or email
- The mentor must be one of the nominated referees and can expect to be contacted by the renewal panel, particularly if it is a coach of the same grade.

Note 3 To qualify the period of working with sports specialists shall cover a number of substantial events such as a years squad programme or a similar event. As an alternative a longer standing working relationship can qualify if it meets the criteria detailed in note 2.

Note 4 To qualify the work with a more senior coach shall comprise working at a 'structured' event such as a performance workshop or squad

Note 5 Some limited CPD may be claimed that has not been undertaken specifically for Archery Coaching. For example items 021 & 022 could have been obtained at work. In these cases the applicant should explain the relevance as Archery Coaching CPD.
